		Reference No:	
Personnel Present:	Phone Call with Liz Gormsen, ICF International and Dawn Merritt, BSC	Phone Number:	(775) 945-3657 (775) 945-2039 (fax)

SUBJECT: Obtain information on baseline public health resources for Mineral County.

SUMMARY

The Community Health Nurse is limited by the State of Nevada's scopes of practice. Under these scopes of practice, Nurse Holybee provides immunizations, conducts general health checks (i.e., blood pressure), screens ears, eyes, nose, and throat, treats STDs when they are within scope and will provide referrals to private doctors when they are beyond her scope.

Nurse Holybee visits a Senior Care and Share center once a month in Mina to provide these public health services. Individuals will come from Luning to the center in Mina when she visits. Mina also has EMT services available.

There is a public health clinic on the Walker River Paiute Reservation in Schurz. This clinic is staffed full time with a doctor and a nurse. It also has emergency medical services and EMTs.
